European Journal of Operational Research 31 (1987) 400–401
North-Holland

Contents Volume 31

1 Invited Review
Managing the modelling process: A personal reflection
S.I. Gass
9 Ambulance deployment analysis: A case study of Bangkok (*Case Study*)
O. Fujiwara, T. Makjamroen and K.K. Gupta
19 Cyclic nurse scheduling
E.S. Rosenbloom and N.F. Goertzen
24 Proportional allocation schemes for tour costs
P.C. Fishburn and H.O. Pollak
31 Simulation with too many factors: Review of random and group-screening designs
J.P.C. Kleijnen
37 Reliability, pricing and quality control
C.S. Tapiero, P.H. Ritchken and A. Reisman
46 Optimal software release policies with simultaneous cost and reliability requirements
S. Yamada and S. Osaki
52 OR contributions to flexibility improvement in production/inventory systems
P. van Beek and C. van Putten
61 Stability of the constant cost dynamic lot size model
K. Richter
66 On a modification of a step-size algorithm
N.I. Djuranović-Miličić
71 A heuristic algorithm for a pseudo-cyclic delivery problem under window constraints
G. Paletta
78 An exact algorithm for the pallet loading problem
K.A. Dowsland
85 An algorithm for set covering problems
J.E. Beasley
94 Heuristic solutions and confidence intervals for the multicovering problem
D.J. Gonsalvez, N.G. Hall, W.T. Rhee and S.P. Siferd
102 Parametric-objective integer programming using knapsack facets and Gomory cutting planes
L. Jenkins
110 Linear programming with a possibilistic objective function
M.K. Luhandjula
118 Simple solution procedures for nonlinear programming problems that are derivative decomposable
R.C. Carlson, J.E. Hodder and J.V. Jucker
127 Generalizations and applications of a class of dynamic programming problems
H.U. Buhl
132 Means and variances of time averages in Markovian environments
W. Grassman
140 A variance minimization problem for a Markov decision process
H. Kawai
146 OR Software
148 Book Reviews
156 EURO Bulletin

First EURO VII Special Issue

164 Editorial
E. Jacquet-Lagrèze
165 Opening address: EURO VII, Bologna, June 17, 1985
J.P. Brans
171 First EURO Gold Medal—EURO VII, Bologna, Opening Session
J.P. Brans

0377-2217/87/$3.50 © 1987, Elsevier Science Publishers B.V. (North-Holland)

173 Address by first EURO Gold Medal recipient
H.-J. Zimmermann
177 Localization in multifacility location theory
C. Michelot
185 MICROLAY: An interactive computer program for factory layout planning on microcomputers
G. Wascher and P. Chamoni
194 The more-for-less paradox in linear programming
A. Charnes, S. Duffuaa and M. Ryan
198 An integrated model for the dynamic analysis of location-transport interrelations
C.S. Bertuglia, G. Leonardi, S. Occelli, G.A. Rabino and R. Tadei
209 Dynamic models for person transportation and their relationship to urban structure and change
A. Bellacicco, S. Cossetto and A.G. Wilson
215 Multicriteria ranking of alternative locations for small scale hydro plants
N. Mladineo, J. Margeta, J.P. Brans and B. Mareschal
223 Planning lot sizes and capacity requirements in a single stage production system
H.O. Gunther
232 A heuristic algorithm for allocation of components in manufacturing processes
E. Trauwaert and A. Decrock
240 Nuclear fuel cycle optimization using multi-objective stochastic linear programming
P.L. Kunsch and J. Teghem Jr.
250 Energy in industry—The role for OR
J.E. Barton
259 OR Software
261 Book Reviews
264 EURO Bulletin

Second EURO VII Special Issue

271 Half a century of operational research in the RAF
D.W. Daniel
276 Critical heuristics of social systems design
W. Ulrich
284 A research study of human decision-making in higher level military command and control
P. Moynihan and K. Bowen
292 Real time gaming with real decision makers—Experiences from crises management gaming for the Swedish economic defence
K.-H. Dreborg and J.-E. Svensson
297 Meaning and validity of interactive procedures as tools for decision making
B. Roy
304 The evaluation criteria of the venture capital investment activity: An interactivity assessment
J. Siskos and C. Zopounidis
314 MEDIATOR: Toward a negotiation support system
M. Jarke, M.T. Jelassi and M.F. Shakun
335 An adaptation of PRIAM to multiobjective linear programming
J.-Ch. Pomerol and T. Trabelsi
342 Interactive multiple objective programming subject to flexible constraints
B. Werners
350 MOLP with an interactive assessment of a piecewise linear utility function
E. Jacquet-Lagrèze, R. Meziani and R. Slowinski
358 Optimal control of a removable server in an M/G/1 queue with finite capacity
J. Teghem Jr.
368 Dynamic estimation of queue behaviour in urban traffic
B. Betrò, F. Schoen and M.G. Speranza
376 Nash fuzzy equilibrium: Theory and application to a spatial duopoly
C. Ponsard
385 OR Software
387 Book Reviews
395 EURO Bulletin
401 Contents Volume 31
